

AZTEC OILS LTD

Neatcut K range

Aztec Neatcut K range are premium quality neat cutting oils.

The K range combines premium quality mineral oils and an 'active' sulphurised ester additive for medium to high severity cutting operations on a wide variety of ferrous metals.

Features:

- Superior Machining Performance
- Good rates of metal removal
- Excellent Tool Life
- Good surface finish

Aztec K possesses powerful chemical activity at cutting zone temperatures which may promote staining of the work piece if used for machining yellow metals although it is non-corrosive to yellow metal components under normal circulating oil temperatures.

Typical Data	Neatcut K25	Neatcut K4	Neatcut K5	Neatcut K6
Viscosity @ 40 oC cST (IP71)	15	22 cST	27	32 cST
Flash point oC	170	170	170	170
Colour ASTM D1500	4.5	4.5	4.5	4.5
Density. S.G@ 15.5oC	.89	.875	.875	.88
