

AZTEC OILS LTD

Neatcut C Range

Aztec Neatcut C Range are products of today's new technology providing the desired extreme pressure requirements with light colour. Neatcut C range have been developed for a wide range of machining operations on automatics and general machine tools.

Aztec Neatcut C range are severe non-staining grades suitable for various operations including drilling, reaming, tapping and broaching of high tensile steels and aircraft alloys. Improves surface finish and increases tool life. Contains chlorinated EP Additives. The combined additives ensure that boundary lubrication is preserved over a wide range of frictional temperatures, providing excellent surface finish, exceptional tool life and the elimination of chip welding.

Neatcut C range are light in colour, and provide excellent workpiece visibility. It is of low odour and contains anti-mist agents.

Typical Data	C12	C32
specific gravity @ 15 oC (IP 160)	0.883	0.89
Viscosity @ 40 oC cST (IP71)	21.6 cST	32 cST
Neutralisation Value	0.28	0.28
Flash point oC (IP 34)	190	190
Copper Stain	Class 1-2	Class 1-2
Colour	Straw	Straw
Odour	Bland	Bland
