

AZTEC OILS LTD

Neatcut J range

Aztec Neatcut J are products of today's new technology providing the desired extreme pressure requirements of a high performance neat cutting oil.

Aztec Neatcut J range are blends of high quality mineral oil with a chlorine additive and a sulphurised fatty ester. The mineral oil has been solvent refined and has a very low level of carcinogenicity-ensuring relative safety to the operator during use. The combined additives ensure that boundary lubrication is preserved over a wide range of friction induced temperatures, providing excellent surface finish coupled with exceptional tool life and the elimination of chip welding.

Aztec J range cover a range of viscosities for various cutting and drilling applications.

Typical Properties	J21	J6	J10	J12
Viscosity @ 40 oC cST (IP71)	5cST	10 cST	22cST	22cST
Flash point oC (IP 34)	120-125	120-125	120-125	120-125
Colour	Amber	Amber	Amber	Amber
Odour	Mild	Mild	Mild	Mild
