## Mould Release CC

### **Product description**

Aztec Mould Release CC is a hydrocarbon based release fluid formulated for duty in principally the production of moulded concrete products. Suitable for use on metal and timber frame work where it will preserve the timber and prevent corrosion on the metal. Produces a clean and positive release combined with a stain free finish.

### **Product Application**

This product should be applied to prepared moulds and formers by swab, brush or spray. On new wooden moulds two applications before first use will assist in extending the mould life.

### **Physical properties:**

Viscosity @ 40oC	4.0 Cst
Appearance	Clear/Light Brown
Flash Point	>70 oC
Relative density	0.840

**Health & Safety** Please refer to the relevant health & safety data sheet, a copy of which is freely available to all of our customers
